Overview

EVENTIFY PRO IS A COMPREHENSIVE EVENT REGISTRATION SYSTEM WITH VARIOUS FEATURES TO SIMPLIFY EVENT PLANNING AND ATTENDEE MANAGEMENT. IT IS ALSO REFERRED TO AS AN EVENT MANAGEMENT SOLUTION, COMMONLY USED FOR ORGANIZING CONFERENCES, WEBINARS, AND CORPORATE GATHERINGS

The system allows users to create registration forms, track participant details, and process payments seamlessly. It includes ticketing options, automated confirmations, and real-time analytics for better event insights. Eventify Pro integrates with CRM and marketing tools to optimize workflows and enhance promotions. Its mobile-friendly interface ensures accessibility for both organizers and attendees.

Security measures protect user data and transactions. The platform supports multi-event management, making it a versatile choice. Eventify Pro helps businesses and organizations run events efficiently and successfully.

The system offers a range of features, including:

- Event Data Management
- Registration Processing
- Enrollment Tracking
- Attendance Monitoring
- Name Badge Generator for Participants
- Survey Collection Tool
- Certificate Issuance for Events
- Payment Monitoring
- Detailed Reporting

Account Management

01

Admin Access

- Event Registration Management – Plan, publish, and oversee event registration records.
- Survey Templates – Design, save, and reuse feedback forms for your even.
- Certificate Design – Create, store, and create certificate using templates.
- Department Branding – Upload, save, and reuse department logos for event pages and certificates.
- Data Reports – Export key details to Excel, including:
 - Event records
 - PayPal transactions
 - Annual reports

02

Attendee Access

- Register for multiple events
- Access to admin via messages
- Review any admin alerts for the events
- Make PayPal or credit card payments
- Check your payment history
- View your activity logs for your security
- View and print your event's certificate
- Cancel or update event
- Request refund for an event

How to create event

BASIC INFO

Navigate to the event section and click "Add New Event." In this section, enter essential event details:

- Event Name, Time & Description – Provide clear and concise information.
- Department Selection – Choose a department (a default department is available, but we strongly recommend creating a customized list of departments).
- Event Type – Select whether the event is In-Person, Online, or Hybrid.
- Address & Site Selection – Choose an address from the integrated Google dropdown and select a site (e.g., meeting rooms, conference halls). We recommend adding all relevant locations for better event organization.

Click Next to proceed.

SESSION DETAILS

In this section, define session-related information:

- Add multiple sessions if needed.
- Allow attendees to select one or more sessions.
- Provide Speaker Details (name, qualifications, and profile picture).
- Include Room Name & Capacity (number of seats available).
- Add specific Instructions for attendees, including important event guidelines.

ATTACHMENTS & DOCUMENTATION (OPTIONAL)

Upload relevant pre- or post-event materials, such as:

- Images, videos, or YouTube links.
- Event-related documents (e.g., forms, guidelines).
- Registered attendees will have access to these materials via the registration portal. Documents can be modified as needed.

Event creation

CAPTIVATE AND ENGAGE YOUR AUDIENCE

ENROLLMENT SETTINGS

- Choose whether the event is Public or Private.
- Define the Refund Policy (select refundable or non-refundable).
- Set the Event Cost.
- Enter the Maximum Number of Participants allowed.
- When the Private option is selected, a unique access key will be generated and displayed.
- b) This private key must be shared manually with the intended audience outside the system.
- c) When distributing the private key, ensure the following guidelines are communicated:
 - Confidentiality – Remind recipients to keep the key secure and refrain from sharing or distributing it further.
 - Registration Instructions – Provide clear steps for event registration using the private key:
 - Share the event URL directing recipients to the event listing.
 - Click "Register."
 - Enter the private access key when prompted.
 - Complete the registration process.

DESIGN TEMPLATES

- Choose from multiple pre-designed templates that align with your event's theme. There are four different templates available.
- Click Edit to customize your event page using the built-in webpage editor.
- Modify text, replace images, and personalize the layout. (We recommend using our templates and only changing the text as needed.)
- Once edits are complete, click Save, close the editing tab, and return to the event creation page.

PUBLISH OR CANCEL

- Once your event setup is complete:
- Click Publish to make the event live for registrations. (An event remains in draft status until published.)
- Drafted events can be updated and published later.
- To cancel an event, click Cancel.

Survey TEMPLATE

MANDATORY QUESTIONS

On left nav, under preferences/Default feedback questions.

These are predefined questions set at the admin level, ensuring consistency across all company events. Every event created by your organization will automatically include these mandatory questions by default. As they serve as standardized queries applicable to all events, there is no need to manually add them for each new event.

SURVEY RESULTS & FEEDBACK ANALYSIS

For all published events, you can review attendee responses by accessing the Feedback Results section. The system presents survey outcomes in visual charts, offering a clear and structured analysis of participant feedback.

NEW QUESTION TEMPLATE

This section allows you to create and customize additional survey questions tailored to your event-specific requirements. You can design a question template to gather valuable insights. After publishing your event, follow these steps:

1. Navigate to the event dashboard and open the Feedback Request tab.
2. Select the relevant question template you wish to associate with the event.
3. Once attached, click "Send Email Request" to distribute the survey to all attendees.

Certificates and badges

CERTIFICATE TEMPLATES

Under the Templates section in the left navigation menu, you can create and name a certificate template for your company.

Once your event is created and published, navigate to the Badges tab, where you can select your newly created template for all future events. The system includes a default certificate design, which can be customized upon special request, and will automatically populate the certificate with event details, admin information, speaker details, as well as the event's date and year.

A default signature style will also be applied to each certificate. After selecting and saving the certificate template, it will be visible to attendees under the Certificates section in the registration system, where they can also print their certificates.

BADGES

In the same tab for published events, you'll find a default badges link displaying badges for all attendees who participated in the event. You can print these badges for your event directly from this section.

Waitlist & sign in sheet – ATTENDANCE

EVENTIFY PRO

WAITLIST

During registration, users have the option to join the waitlist when an event reaches full capacity. Submitted requests are tracked in the order they are received. When a seat becomes available, the first person on the waitlist will receive an email invitation to register. Administrators will be alerted when there are waitlisted users. If a participant cancels their registration and a seat becomes available, the admin can manually send a registration request to the next user on the waitlist.

ATTENDANCE

Record the attendance for an event. Only participants with the status of attended can download their certificates or receive an email invitation to complete the online survey.

SIGN-IN-SHEET

o print the names of registered attendees for collecting signatures at an onsite event, follow these steps: First, navigate to the Sign-In Sheet tab within the event management section. This will display a list of all users who are registered for the event. The list includes important details such as attendee names, their respective departments, and a column for signatures. You can either view or print this list, which is designed to help streamline the check-in process during the event. The signature columns are provided for each participant to sign upon arrival, ensuring accurate attendance tracking. This printed list serves as a valuable tool to manage attendance and verify participant participation at the event.

Payments

RECEIVING PAYMENTS

All payments for events can be processed through the PayPal system, with the option to use credit card payments. Upon request, we can also add alternative payment methods such as Stripe or Apple Pay to accommodate customer preferences.

To view all payment details related to any published event, navigate to the event page and click on the Payment tab. Here, you will find the following information:

- Registered users
- Payment method used
- Refundable status of the event
- Name and email of the payer
- Amount paid
- Payment type and payment status

Additionally, you have the option to download a detailed sheet containing all payment information.

COMPANY PAYPAL ACCOUNT SETTINGS

To receive payments for your event through PayPal, you must configure your company's PayPal account under Configurations > Organization and click the Add PayPal Configuration button. Obtain the Client ID and Client Secret from your company's PayPal account. Instructions on how to retrieve these keys for your PayPal account will also be provided. Once entered, click Save to complete the setup and enable payment processing through PayPal.

Paypal account settings

PAYPAL SETUP

To get the Client ID and Client Secret from your PayPal account, follow these steps:

1. Log in to your PayPal Business Account at [PayPal](https://www.paypal.com).
2. Go to the PayPal Developer Dashboard: <https://developer.paypal.com/> and log in.
3. Under "My Apps & Credentials," click "Create App" (or select an existing app if available).
4. Once the app is created or selected, you'll see the Client ID and Client Secret in the REST API apps section.
5. Copy and store these credentials securely for use in your event registration system.

These credentials are necessary to integrate PayPal payments into your system.

CUSTOMER SUPPORT

If you need assistance with linking your PayPal account to the system, you can request support by creating a ticket through the Help section or by directly contacting us at info@eventify-pro.com. We typically respond within 48 business hours. For urgent requests, please include the word "URGENT" in the subject line, and we will prioritize your inquiry and reach out as soon as possible.

Reporting and Analytics

EVENTIFY PRO

EVENT REPORTS

You can generate a Fiscal Year Report for events by department, which includes the following key details:

- Event Name
- Start Date
- End Date
- Department Name
- Event Type
- Total Registered Users

This report provides a comprehensive overview of all events within a specific fiscal year, allowing you to track performance across different departments.

PAYPAL REPORT

You can also generate a Payment Report by selecting a specific date range and department type. This report allows you to view and download payment details, giving you insights into transactions associated with your events. This feature helps in tracking payments and managing financial data efficiently.

Alerts & portal Appearance

ALERTS

Under the Events tab, the admin has the ability to add alerts for specific events. Both registered users and admins will see these alerts displayed at the top of the page, indicated by a bell icon. By clicking on the bell icon, users can view the alert details.

This feature allows admins to send timely notifications to both themselves and registered users regarding any important event-related updates or changes. Alerts are an effective way to keep everyone informed and ensure smooth communication throughout the event process.

APPEARANCE

You can select your application Appearance from the top color icon. Here, you can choose between Light, Dark, or System. The System option automatically adjusts the theme based on your system's time—switching between light and dark modes depending on whether it's day or night. This gives you a seamless experience tailored to your device's settings.

Multi-Language & Left nav pin

LANGUAGES

You can select multiple languages based on your region, as we offer a wide range of language options. The system includes many of the most commonly used languages to ensure accessibility for users across different regions. Simply choose your preferred language(s) from the available list, and the application interface will adapt accordingly, allowing for a seamless experience in your desired language. This multi-language feature ensures that users can easily navigate and manage events, regardless of their location or preferred language.

LEFT NAV PIN

You can pin the left navigation menu by first opening the menu and then clicking on the arrow icon at the top of the menu. This action will pin the menu, keeping it open all the time for easy access. If you prefer the menu to automatically open and close when you hover your mouse over it, you can unpin it by clicking the arrow icon again. This gives you flexibility in how you interact with the menu, allowing you to customize your workspace according to your preference.

Membership & Trial period

MEMBERSHIP

Once you've signed up for Eventify Pro and logged in, navigate to the top-right corner and click on your profile picture. From the dropdown menu, select Membership. Here, you can view important details about your account, including:

- Account Type
- Number of Events Allowed
- Attendee Limit
- Membership Start Date
- Remaining Time for Trial Membership
- Trial Status
- Payment Details

This section provides a comprehensive overview of your membership status, event limits, and trial period, allowing you to keep track of your subscription and its benefits.

TRIAL PERIOD

For the trial period, you have a 14-day free trial. During this time, you can explore all the features of Eventify Pro and decide if it meets your needs. You can cancel your trial at any time before the trial period ends.

Once your trial period concludes, your subscription will automatically convert to a yearly payment based on your account type. The payment will be charged annually as per the terms of our contract.

You can update your membership at any time before the trial ends. A yellow label with a trial notice will be displayed on your screen, ensuring you're always aware of your trial status. If you'd like to upgrade your package, simply click the "Upgrade Now" button to select a higher-tier version.

If your trial has already ended, you can still upgrade to the next level version of Eventify Pro. This gives you the flexibility to choose the package that best suits your needs at any point during or after the trial period.

Profile & Passwords

PROFILE

To update your profile, click on your profile picture in the top-right corner of the screen. From there, you can edit the following details:

- Name
- Profile Picture
- Email Address

Every time you make changes to these options, you will receive email notifications for security purposes. It's important to carefully review these notifications to avoid any potential security breaches and ensure your account remains secure.

RESET PASSWORD

You can reset your password from the same link where you update your profile. Please note that your new password must follow the same pattern you chose during the sign-up process.

To enhance security, we strongly recommend selecting a strong and complex password. Here are some tips for creating a secure password:

- Use a mix of uppercase and lowercase letters.
- Include numbers and special characters (e.g., @, #, \$, %).
- Ensure the password is at least 8-12 characters long.
- Avoid using easily guessable information, like your name or birthdate.
- Consider using a password manager to keep track of complex passwords securely.

A strong password helps protect your account from unauthorized access and ensures the security of your data.

PASSWORD

Event reminders & Manage users

SET REMINDER DAYS

We have an automated reminder system that sends reminder emails to all registered users, notifying them of upcoming events. There are two options for setting reminders:

Set Reminder Days:

Under the Preferences section, you can select Set Reminder Days and specify the number of days before an event when users should receive a reminder email. This ensures that your attendees are notified in advance of all upcoming events.

Manual Email Reminders:

Under the Published Events section, within the Registration Tab, you can manually select any users from the list and send them personalized reminder emails or other notifications as needed. This gives you control over sending custom messages or additional reminders to your attendees.

MANAGE USERS

Under Preferences, in the Manage User Account section, you can manage user accounts effectively. This includes:

- **Managing Users:** Add, update, or remove users from the system.
- **Deactivating Users:** Disable users' access if they no longer require it.
- **Setting Roles:** Assign specific roles to users, such as Admin or General User, according to their responsibilities and needs within the system.

This feature allows you to control user access and ensure that the right individuals have appropriate permissions to manage and participate in event-related activities.

Setting up organization & Adding contacts

ORGANIZATION

Under the Organization section, you can update your organization's information, including:

- **Custom Logo:** You can override the Eventify Pro logo with your own company logo. There is a specific size requirement for the logo, and the system will provide details on the correct dimensions while uploading.
- **Contact Information:** Update your organization's phone number, email address, name, and physical address.
- **PayPal Information:** You can also update your PayPal account details for seamless payment processing.

This section allows you to personalize and maintain accurate organization details to ensure smooth event management and branding.

CONTACTS

Under the Organization/Organization Contact section, you can add your company employees' contact information to send event invitations either to all employees or selected individuals. There are two ways to add contacts:

Under the Organization/Organization Contact section, you can add your company employees' contact information to send event invitations either to all employees or selected individuals. There are two ways to add contacts:

1. Excel Template Import:

- Download the provided Excel template, which includes the correct format to add your company's data.
- Once you've filled in the details, browse the file and click the Import button. The system will automatically import all your contacts.
- After importing, you can select all contacts and send event invitations to everyone.

2. Manual Single Contact Addition:

- If you want to add an individual contact, click Add New Contact, then enter the name and email of the person.
- Once the contact is added, select the event you want to invite them to, choose the email(s) for the invitation, and hit Send Email. This will send the event invitation directly to the selected contacts.

These options provide flexibility in managing and sending event invitations to your employees efficiently.

Help

FREQUENTLY ASKED QUESTIONS

You can find all the FAQs under the Help menu. This section contains answers to the most commonly asked questions, designed to assist you in understanding the app's features and resolving any issues or queries you may encounter. We are continuously updating this section with more questions to ensure you have all the support you need. Additionally, in the future, we will be adding articles related to the app, event management, and system enhancements to provide more comprehensive guidance. For any other inquiries, don't hesitate to reach out to us. We're here to help!

USER MANUAL

You can also find the User Manual under the Help section. The manual is available as a PDF file, which you can easily download and print for internal use and training purposes within your company. This manual provides step-by-step instructions and guidance to ensure a smooth experience for your team in using the Eventify Pro system effectively.

EXCEPTIONS

Under the Help section, we also have an Exceptions link. This is where any errors or issues related to the application are logged. If you encounter any problems or receive error messages while using the system, these errors will be recorded here. This log helps us quickly identify the root cause of the issue. If you experience any difficulties and notice errors in the log, please make sure to include the error details in your help request. Providing this information will assist us in resolving the issue more efficiently and effectively.

We appreciate your trust in Eventify Pro Registration System. Our team is committed to providing you with the best possible experience, and we are here to support you every step of the way.

For any assistance, questions, or support, please don't hesitate to reach out to us at info@eventify-pro.com. We typically respond within 3 business days.

If you need additional features or integrations tailored to your specific requirements, we would love to hear from you. We can quickly add new features and integrations to make sure the system meets your needs perfectly.

Visit our website at:

www.eventify-pro.com

Thank you again for using Eventify Pro. We value your partnership and look forward to helping you host successful events.

"A satisfied customer is the best business strategy of all." – Michael LeBoeuf
